God rest his soul. He will forever be missed. He was so good to my family and we all loved him. He really loved his grandchildren so much I don't think you can put a price tag on how much. I remember him taking the kids to the toy store and they walked out with tons of toys lol . He was the kind of person that would come to visit and look for anyway to help you. He wanted what was best for us. He will forever be missed heaven gained one of the great ones.

So many memories, I don't even know where to start. I was 9 when you and mom got together. You never once tried to replace my dad, but instead just supplemented him but you accepted and treated me and my brothers like we were your own. You took great care of all of us. You worked hard to provide for us. Sometimes I never understood why you did the things you did or said the things you said, but as I got older, it all made more sense. One major thing that stuck out is how no matter what, you always offered your food up until the day you died. I could have my own plate and you would still offer me yours because that is the kind of person you were. I will always remember trading punches with you and the boys and loved how you never held back all because I was a girl. We all left with red and sore arms. And my all time favorite memory was going to the tattoo parlor with you. To mess with mom, we had the tattoo artists put a fake tattoo on my arm and even spiced it up some with markers to make it look more real. Mom freaked out, we both laughed! You loved telling jokes and making everyone laugh. I am really going to miss walking into the house and hearing "Hey baby girl!" You will be greatly missed by everyone. I love you now and always. And don't worry, I will continue Happy Fridays with tacos!

I remember that time you pretended some guy beat you up and we were running for our lives. You had fake blood and everything. I was so scared because in my mind no one could beat you up. You were the roughest toughest man I knew. I'm so sad I don't have one picture of us. I love you

My handsome big cousin. You were a force. Your personality just like my father, your namesake. I've always adored you and will never forget how you made me laugh. My favorite memory is when I was thirteen and came to stay with you. You dressed me up in proper biker attire, jeans, boots and a shirt that said "wicked, mean, and nasty", bought me beer and took me to a BBQ with the Hells Angels. At thirteen it was a blast and so cool, I'll never ever forget it. I'll never forget you. I love you and even though we would rather you be here with us I'm glad you're finally at peace. For now send me some signs....until I can give you a big hug once again, Rest In Peace. 🙏❤️
